## THE "SENTINEL"

Has the Largest Bona Fide Circulation of Any Daily Paper in the State, outside of Indianapolis, and larger than all the other English dailies in the city combined. Advertisers and Others are Invited to Call at this Office and Verify this Assertion.

SERIOUS trouble seems to be brewing in Ireland. The English journalists are badly frightened at the outlook.

SENATOR McDONALD has just returned from Ohio and in an interview with the Indianapolis Sentinel takes an encouraging view of the situation in that state. He says the democrats are sure of the legislature and will probably elect Ewing.

The Gazette says its subscription lists are open to inspection. The best way for the Gazette to do is to publish the exact figures. The SENTINEL has a larger circulation than all the other daily papers in the city combined. Its outside circulation is greater than the entire edition of any other daily paper. The SENTINEL will be glad to join with any or all of its contemporaries in printing a sworn statement of its circulation. Unless they join in the publication the SENTINEL will print the figures, and tell the world exactly the size of the circulation of the other daily papers. It will make very interesting reading.

SENATOR BRUCE's committee, which has been investigating the affairs of the defunct Freedman's Bank, has discovered a large amount of rottenness and corruption. The senator, in a recent interview, said:

When we make our report there will be startling revelations, which I can not now speak of. There is one great trouble, I find, which our reporters have in balancing, and that is that just when they reach that point which ought to lead to important developments, they find that three or four pages of the ledger are torn out.

The Freedman's Bank was a monument of radical rascality, the victims being poor negroes who were induced to invest their savings in the institution and who were swindled in a most shameless and barefaced manner. Senator BRUCE says:

What I want to do is to induce congress to buy the Freedman's Bank building. If such a sale can be effected, I will guarantee that an additional dividend of 20 percent will be paid to the bank creditors. With the 30 percent already paid, and the 20 percent additional which I anticipate, the bank will pay the payments will aggregate a total of 50 percent, and that is all, I think, that ever will be paid. What ought to be done by congress is to buy the building and discharge the three commissioners who have for three years been drawing a salary of \$3,000 per year. If the bank creditors get the 50 percent, that is the 20 percent additional I hope to secure for them—they ought to be satisfied, for I feel confident they will get no more.

Ex-Senator Doollittle.

The Fort Wayne SENTINEL is of the opinion that "Ex-Senator Doollittle's speech, read at Toledo Wednesday night (the senator not being present on account of the death of his wife) was the most powerful analysis and arraignment of the financial policy of the republican party we have

ever read." No unprejudiced man can read this powerful arraignment without becoming convinced of the injustice and infamy of the financial legislation of 1869 to 1875. The major portion of the facts embodied in Mr. Doollittle's speech have heretofore been presented to the public in one form or another, but never in language so clear and forcible. Mr. Doollittle is among the most powerful orators of the age. He would make a splendid president. We would love to vote for him.

## NEWS NOTES.

St. Louis has determined to hold no more exhibitions.

The friends of James Redpath have not heard from him since his disappearance.

The wife of John T. Raymond, the actor, has been granted a divorce from him on the ground of adultery.

The excess of exports over the imports for the year ending August 21st, 1879, amounted to \$289,709,341.

W. Todd, one of the most prominent New York bucket shops, has suspended. Liabilities, \$50,000.

The postmaster-general has ordered that in future Canawha Court House, W. Va., postoffice be known as Charleston, W. Va., postoffice.

Quarterly interest on the 4 percent loan falls due to-day. The treasurer has sent out 53,000 checks in payment, representing \$4,690,875.

The governor of Pennsylvania has appointed Henry Green, of Easton, judge of the supreme court, in place of Warren J. Woodard, deceased.

The First National Bank and Bank of Commerce of New York to-day make final payments to the treasury for the bonds they sent to Europe.

Their office in London closes to-day.

At Urbana, O., on Monday, John Connerston, a boy aged sixteen, while stealing a ride on a switch engine, fell under the wheels and was instantly killed. Not a whole bone was left in his body.

The books of the Hannibal and St. Joseph Railroad Company closed Monday for the annual election. The transfer made on the eve of the closing was of great importance, as foreshadowing its future prosperity.

Gen. Anson Stager, Norvin Green, George Prexott, George Walker, T. R. Edison, James H. Banker, Samuel F. Barger, Wm. M. Bliss, Augustus Schell and Hamilton McTombly have been elected directors of the gold and stock telegraph company of New York.

C. H. Morris and wife, living on a farm near Decatur, Mich., were murdered on Sunday night by some unknown persons who shot them both and robbed the house of a large sum of money. They were young and wealthy. The murderer has not been apprehended.

A meeting of the creditors of Rev. W. H. Murray was held at Guilford Tuesday. A. G. Hill was appointed trustee. Senator O. H. Pratt who appeared for two parties who had furnished Murray notes, said he was of the opinion that Murray's assets would have paid all his debts had he been given time and they had been prudently managed. Murray was not present, and it was stated by a friend that he (Murray) believed his creditors to be too disaffected to desire his appearance.

## FOREIGN FLASHES.

The situation in Eastern Roumelia is considered very critical.

The transport Le Nacaria, with 450 communists, has arrived at Berst.

Rumors are current of an impending alliance between France and Russia.

A Berlin dispatch says Gortschakoff has visited the Emperor William at Baden Baden.

The Princess Louise sails the 18th of October for England in the steamship Sarmatia.

Paul Adelbert Rene De Talleyrand, grandnephew of the celebrated Prince Talleyrand and Count De Prigord, is dead at sixty-eight years.

Eastern Siberia is menaced with famine. Grain is dearer than ever before, and the poor are suffering severely. The harvest was very bad.

The strikers in London have been very orderly, and with the exception of a procession nothing has occurred to indicate that a strike is in progress.

A Berlin dispatch says that in order to promote the direct export of Russian grain to England 5,000,000 roubles have been assigned for improving the Estonian harbor of the Baltic port.

The ambassadors of the great powers at Athens have been instructed to make a joint and identical representation with a view of bringing about a reconciliation between Turkey and Greece.

The French government contemplates the establishment of chambers of commerce abroad, and giving consular stations at important points a competent commercial agent to facilitate the transaction of business.

Sicily and Southern Italy were visited by a great storm Sunday, which carried away a railroad bridge between Cirio and Crucoli, hurling a passenger train into the torrent. The engineer was killed and all the passengers more or less injured.

Advices from the expedition against Merv confirm the news of a severe battle, in which 30,000 Turcomans were engaged. The battle lasted six hours, and while it is claimed that several thousand of the enemy were slain, the Russians lost many men and seven officers, and the affair is regarded as a severe check to the expedition.

Princess Louise has taken passage by the steamer Saramathian, which sails from Quebec on the 18th of October. For some time past she has not been enjoying good health, and her medical advisers, it is said, urged a change of air. It is understood, however, that her royal highness will return to Canada in time for the opening of parliament.

A Madrid dispatch says in consequence of intelligence from the

Spanish embassy at Paris, confirming the report of the coalition of democrats and radical reformers with Senator Zorilla, many retired officers and field officers as well as civilians have been arrested at Barcelona, Seville, Jassossa, Valladolid and Amery. Their cases will be referred to court martial. Arms and a despatch printing establishment have been seized by the police of the city.

## SPORTING NOTES.

At Louisville, Tuesday, the 4 mile dash was won by Glendalia, Buckshot 2nd, Judge Thompson 3rd; time 1.16.

The Astley belt has been attached in a suit by some of Weston's creditors. Rowell will institute legal proceedings for its recovery.

In the closing league base ball contest the score stood: Providence 14, Boston 3. The latter club was subsequently entertained at banquet. From 3,000 to 4,000 people assembled at the reception of the successful club.

J. H. Haverly has purchased \$39,000 out of \$75,000 of the Chicago jockey and trotting club stock. It is his intention to run the track as a first-class racing ground, offering such purses that all the best horses in the country will appear there during the racing season; to allow no hippodrome performances, and to give trotting meetings in June and September, and running meetings of twelve days each, upon the Saratoga plan, in July and August.

## An Important Decision.

An interesting decision has just been made by Acting Secretary Bell, of the interior department, in the case of Hugh Lyons against Rachael Stevens, of Salt Lake City, involving the question of right these parties have to sections of land in Salt Lake City and land district. The claims of Lyons are rejected on the ground that the tract was subject to pre-emption or settlement by Rachael Stevens, it appears, is one of the several wives of John G. Holman, whom she recognizes as her husband. He, to all intents and purposes, governs and controls her acts. The decision holds, in view of the polygamous condition, that the first truly polygamous wife, while voluntarily retaining that illegal relation to a man, may, in her own name, obtain title to 160 acres of public land. The second or twentieth wife may do the same, and the so called husband would thus obtain in fact, for his own use and benefit, control of that number of tracts of public land. This will not be permitted under home-ownership or pre-emption laws. If the so called wife, the decision continues, should repudiate the illegal relations and cease to violate the laws of her country and the civilized world, the fact that she had at one time been called the wife of a man and had maintained that relation to him would not operate as a bar to her rights. No woman, however, who voluntarily maintains and acknowledges her position to be that of plural or polygamous wife, should be permitted to take a homestead or pre-emption entry of public land, as the very fact that she retains such relation gives conclusive evidence that the entry is not made in good faith for her exclusive use and benefit.

## Pacific Mail.

The Graphic says, in explanation of the marked advance in the price of Pacific Mail shares, one of the directors of the company states that the company is and has been for some time past, realizing large profits, and is rapidly paying off its back obligations to the Panama railroad. It will pay off to-morrow a further sum of \$200,000 of this indebtedness, and money for this purpose is now in the bank. Every steamer out is fully loaded with freight, and the incoming steamers from Aspinwall are continually compelled to leave much freight behind. The net earnings of the company at this time are at the rate of \$75,000 per month, and it is stated that by the beginning of the next year the entire bonded indebtedness will have been reduced to \$100,000. If this information, which comes officially, be correct, the first step has been taken to justify confidence. It is the expectation of some of the leading shareholders that the company will at early day take its place among dividend-paying corporations. A thorough reorganization of the details in the management of the company's affairs at San Francisco has been ordered by the board of directors, including a reduction of 33 1/3 percent. An agent of the company leaves immediately to perfect the organization and to institute economies which will reduce expenses at that end of the route to conform with those already introduced in New York.

## Hayes and Grant.

Hayes and party had a grand reception at the executive mansion, Springfield, Tuesday night, which was a brilliant affair in every respect.

Grant and party visited Stockton (Cal.) on Tuesday accompanied by the Marshons, Floods, etc. Thousands of people were gathered at the stations, and the party met with a grand reception at Stockton.

Hayes was welcomed by Mayor Hayes and escorted by a line of military companies, the Stockton fire department, union veterans and veterans of the Mexican war, to a carriage drawn by four white horses. The procession then formed and proceeded to traverse the principal streets. At the court house there was a concourse of

several thousand school girls, who saluted the visitors by waving their handkerchiefs and hands. After passing the procession in review, the general was driven to the Yosemite House, where he received prominent citizens. The city was decorated and the military display, was creditable. The party left for Yosemite at half-past 7 o'clock.

## CRIMES AND CASUALTIES.

Boston, Sept. 30.—Henry A. Hall, the well-known rubber manufacturer, committed suicide at Bridgeport, this afternoon, in a bath tub.

Potosi, Sept. 30.—Alexander O'Donnell, an unmarried Canadian, aged twenty-five and a deck hand on the steamer City of Grand Rapids, was killed this morning while pulling in a line as the steamer was backing out of the dock. He had his head out of a port hole and was crushed between the steamer and spile.

Louisville, Ky., Sept. 30.—Col. Clark was removed from the Galt House to his residence on Broadway. He is suffering intensely from the laceration caused in the passage of the large bullet, but it is thought to be in no great danger whatever.

Col. Clark said to Moore that he intended no insult; that he was simply doing his duty as the president of the race course by seeing that the rules were enforced.

"You must make a public apology," Clark said, "if this is what you want." Clark said "you will have a long time to wait." Moore at this was furious, and sprang to his feet, placing his hands behind him as if to draw a weapon. Clark hit him a staggering blow between the eyes, and quickly drew a pistol that he had gotten from Mr. Murphy, a clerk of the hotel, having been notified to prepare for an attack from Moore. Placing the weapon upon a table he clinched with Moore, who had as yet shown no pistol, pushing him from the room, closing the door against him. Picking up the pistol again he stood ready near the ground glass door to receive Moore if he came back armed, as he judged he would from his calling to his son for a pistol. The chamberlain above and slightly behind Clark cast his shadow on the glass, and taking aim by this guide, Moore placed his pistol close enough to the door to burn the frame-work and fired.

The national military convention met at St. Louis Tuesday. Gen. Denver, of Ohio, was chosen president and Gen. Alexander, of Ohio, secretary.

On Tuesday afternoon they were banqueted by the fair association. Gen. Denver presided on the occasion and speeches very strongly in favor of organizing the militia of the whole country in uniform were made by Gen. Maury of Virginia, Gen. Lee of Mississippi, Lieut. Col. Thompson of Illinois, Gen. Grackmar of Mississippi, Gen. Alexander of Iowa, Gen. Hunt of Ohio, Gen. Denver of Ohio, Gen. Beauregard of Louisiana, and others.

After the feast was finished, the whole party repaired to the military camp, Western park grounds, where the Chickasaw Guards of Memphis, Harris Guards of Dayton, and several companies of the first regiment police reserves, first regiment national guards of St. Louis, were drawn up in line under Brig. Gen. Auvera, of the Missouri National Guards. A parade and review was then proceeded with, Gen. Beauregard being reviewing officer. The troops presented a very fine appearance in their brilliant uniforms, and their performances were so creditable as to elicit encomiums from all present.

## Labor Troubles.

It is predicted that there will be a general strike among the coal operators in Ohio and Illinois on the 4th of October. It is said the proprietors nearly all have contracts with railroad companies at prices which are a loss to them, and that they are in sympathy with the strike, hoping it will cancel their contracts.

The Fall River mills are now running in part or in full, except the Boston City, which shut down for want of cotton. The trustees of the Border City are paying a dividend of 8 percent to its creditors.

Thirty-five laborers employed on the Pittsburgh, Cincinnati &amp; St. Louis Railroad at Cincinnati, struck Tuesday for an advance of five cents to \$1.10. They were paid off and discharged and their places filled by other men. The Marretta &amp; Cincinnati, and Ohio &amp; Mississippi strikers have resumed work. Cincinnati coopers have decided to demand an advance in coopers of 10 cents on barrels, 5 cents on half barrels and 5 and 2 1/2 cents on kegs. The rumor of a contemplated strike among the shoe makers seems to be groundless.

## Yellow Fever Notes.

All quarantine restrictions at Mobile against New Orleans have been removed.

Seventeen cases, 10 white and 7 colored, were reported at Memphis Tuesday. Martha Milburn died.

The colored patrol companies at Memphis have been relieved from duty after two months' service. They were paid \$1,000 donated by the committee of safety, who also provided each member with ten days extra rations.

The donations aggregated \$1,500 including \$1,000 from Boston accompanied by the following telegram: "The citizens of Boston sympathize with you, and desire your noble work." (Signed.) FREDERICK O. PRITCH, Mayor.

## "They are All Sold."

"I am too late for this month's drawing" is the tenor of a complaint which is becoming very general among those who loiter and wait until the day immediately preceding the monthly drawing of the Louisiana State Lottery Company, which occurs invariably at New Orleans, on the second Tuesday of every month. The fact is that the integrity with which every action of this institution is characterized has so

strengthened its reputation that its tickets are sold every month some days before the drawing, and therefore any one desirous of investing in this manner should suffer no time to elapse before they correspond with M. A. Dauphin, P. O. Box 692, New Orleans, or same relative at No. 319 Broadway, New York, relative to the 13th Grand Monthly Drawing which occurs on October 14th.

## Keep Dwellings Dry.

A warm and dry atmosphere is not unwholesome, but when cloudy or rainy weathers bring a sultry air which dampens everything around us, the atmosphere may be loaded with the germs of disease and fire is needed to destroy them. The walls and floors of apartments should never be allowed to become damp. Sometimes when the warmth of the air is oppressive, fire is more necessary to protect us than in the cold of winter; and the best of a dwelling should never be left without the means of warming and drying. Investigations have shown that many of the most fatal diseases are caused by the germs of vegetables and animal life, and that a humid atmosphere is most favorable for the propagation. It is, therefore, neglecting to avail ourselves of the great discoveries of the age, and failing to protect ourselves from scourges which so fearfully afflict families, when we ignore the dangers which surround us. Apartments exposed to the full action of the sun may be less comfortable in hot weather than those from which the sun's rays are excluded, but they are more wholesome, and when contagious diseases prevail in closely built cities it is found that inmates of houses on that side of the street exposed to the sun are less liable to be attacked, while the greatest number of sick are always found where there is the least exposure to the rays of the great disinfectant—the sun.

## Plants and Chloroform.

Prof. G. J. Allman, president of the British Association, in his inaugural address at the Sheffield meeting in August, discoursed on "Protoplasm and Life." In his remarks he mentioned a series of experiments made by Claude Bernard on the action of ether and chloroform on plants.

He exposed to the vapor of ether a healthy sensitive plant, by confining it under a bell glass into which he introduced a sponge filled with ether. In half an hour the plant was in a state of anesthesia, with all its leaflets fully extended, but showing no tendency to shrink or to be touched.

On Tuesday afternoon they were banqueted by the fair association. Gen. Denver presided on the occasion and speeches very strongly in favor of organizing the militia of the whole country in uniform were made by Gen. Maury of Virginia, Gen. Lee of Mississippi, Lieut. Col. Thompson of Illinois, Gen. Grackmar of Mississippi, Gen. Alexander of Iowa, Gen. Hunt of Ohio, Gen. Denver of Ohio, Gen. Beauregard of Louisiana, and others.

## Concentrated Food for Horses.

It is known that the Russian and Prussian governments have adopted a kind of biscuit for horses containing much nutritive matter in small volume. According to La Nature, the biscuits are formed of the meal of oats, peas, and linseed. The various combinations have been studied with care, and a mixture has been obtained that one kilogramme of it is equal to five kilograms of oats. It has been found that horses fed with these biscuits, than when fed with oats, are more vigorous when fed with these biscuits, than when fed with oats.

## STATE NEWS.

Muncie has a new daily paper, the *Times*.

Robert Mitchell and his fifteen-year-old son went to Franklin, Monday. The old man got drunk and the boy followed suit, which raised the old man's ire, and he chucked the boy out of the wagon. He fell on his head, and his injuries, it is thought, will prove fatal. The state is waiting for him on the charges.

The ex-superintendent of the Lafayette water works has not settled yet. He claims the shortage is not over the half of \$1,600, as the commissioners make it out.

A new railroad company has been organized for the purpose of building a road from Kentland to intersect the Cincinnati, Lafayette and Chicago road at Earl Park. Articles of association have been forwarded to the secretary of state. Dr. J. Hatch, of Kentland, president, and C. W. Davis, secretary. Grading will commence at once. President Earl, of the C. I. & C., will furnish the iron and operate the road.

The trial of Alex. Covert, for the murder of his brother on the 20th of July, began at Columbus, Monday. The murder arose from a dispute as to who should pay the hired girl in their parents' family.

Nicholas Drayer, a farmer, having an attack of colic, fell from his seat in his wagon and broke his neck. The accident occurred at Richmond on Monday.

A twelve year old son of Fred Laumehr, of Richmond, fell from a hickory nut tree, a distance of forty feet, sustaining injuries from which he cannot recover.

The state show at Indianapolis opened on Monday with flattering prospects.

On Monday Chester Gordon, of Marion, sustained a compound fracture of his leg by jumping out of a wagon while the horses were running away.

Simpson Dye's dwelling house, near Abington, was burned on Sunday. The loss is reported at \$3,000.

A special officer of South Bend, named Faber, was attacked by a gang of roughs on Sunday night. He drew his revolver and shot two of them, breaking the leg of one.

A man named Cheney was drowned in Nolan's Fork, about six miles northeast of Connersville, on Sunday.

Henry Immel and H. C. F. Westrum came near having a gory fracas this afternoon at Salvabenecken's saloon, in which Westrum shook up Immel, and Immel, with generous magnanimity, offered to throw a beer glass through Westrum's head. The whole difficulty was because Immel took Westrum's horse for a little drive without first getting Westrum's absolute permission.

## A PRYING PAIR.

Who Fooled Around an East Main Street Residence.

Mysterious Actions of Two Men Last Night.

The mysterious actions of a man on East Main street last night attracted considerable attention from interested parties, of which the object was entirely unconscious and had he known how near he came being sent to the bright eternal by a revolver in the hands of Justice Becks he assuredly would have lost no time in getting out of that vicinity.

At about 11 o'clock last night Mr. Becks was awakened by the barking of his dog. He went to the window, and by the bright moonlight saw a man in his yard. He continued to watch him for about half an hour, when the man went outside and devoted his attention to the opposite house and then came back. Mr. Becks now dressed himself and taking his revolver, went down stairs and hid himself in the shade of the sub-bury. The man on the outside was then joined by another man and the two stood conversing for a long while. Officer Trautman came up the street, when the two separated and walked off in different directions. After the officer had passed by they again came together and continued their mysterious movements until about 2 o'clock, when they left. Mr. Becks waited a while for them to return but they did not and he retired.

The mystery is what they wanted or what they were doing there at that time of night. Mr. Becks knows one of the men and has seen him frequently and has seen him about the premises three times before, and swears that the next time he sees him prowling around there after dark he will send a bullet after him to interview him.

## FORGERIES.

Manufactured Notes Peddled Through the County.

John P. Shoaff Swindled Out of Over \$300.

On Monday a stranger sold to John P. Shoaff three notes calling for \$95, \$135, and \$115, signed respectively Abraham Jackson and Henry Shull, dated at Maysville, and Saml. Zeimer, dated at Spencerville.

Before buying them Mr. Shoaff inquired as to the solvency of the makers, and finding them all reliable men he bought the notes as above stated. This same man had offered to sell the notes to Wash Dutton, Hometown, last Monday. Mr. Dutton not wishing to buy a cat in the bag told him that he didn't have the money with him, but that he would meet him at the Grand Hotel yesterday afternoon and would take the notes. He went home, and in the meantime drove over to the residence of Henry Shull, the reputed maker of one of the notes. Mr. Shull was very much surprised to learn that any one had a note of that kind on him, and denied most emphatically ever having made any such note.

Mr. Dutton did not visit the other supposed makers but concluded that they were forgeries as well. So he was just about starting for this city to purchase the notes, intending to have an officer present at the same time and immediately after the purchase of the notes have him arrested and held to trial.

Before leaving however he was met by Deputy Sheriff Wilkinson who informed him that Mr. Shoaff had bought the notes and had them now in his possession. Mr. Quinton then started for the residence of Mr. Shoaff to apprise him of the circumstances and it was supposed that both gentlemen would be in the city to-day, but at this writing they have not yet put in an appearance. The notes were for the purchase of lighting rods, but further than that nothing can be learned, as neither of the alleged makers is in the city. Neither is it safe to say that the notes were forgeries, only on the statement of Mr. Shull, who disclaims any knowledge of ever having had any business transactions with the lighting rod company. Further developments will probably be made to-morrow.

## AURENTZ-MONNING.

Brilliant Matrimonial Event This Morning.

An affair which has for sometime been the theme of conversation in fashionable circles, culminated this morning in the uniting of the destinies of Miss Anna Monning, daughter of our esteemed fellow-townsmen Henry Monning, and Simon Aurentz, son of Philip Aurentz. At precisely 10 o'clock the doors of St. Mary's Church were thrown open, and the high contracting parties marched up the aisle, attended by Mr. John Aurentz, brother of the groom and Miss Kittie Monning, sister of the bride. The church was thronged with guests who came to witness the ceremony, and with the grand altar a perfect blaze of light, and the large organ pealing forth the grand wedding march, the scene was decidedly brilliant. The bride was dressed in white Swiss, with flowers in train and bridal veil, while the groom wore the conventional black. After the tones of the organ had died away the Rev. Father Rademacher came forward and joined the happy couple in the holy bonds of matrimony, and after a few words of advice reined to the society where he reposed for mass which was immediately celebrated and the happy couple adjourned to the residence of the bride where a sumptuous repast and the hearty congratulations of friends awaited them. The SENTINEL extends its hearty good wishes towards the happy couple, and may they sail down the stream of time untouched by the tempests and storms that rage throughout this heartless world.

## THE RAILROADS.

C. D. Gorham returned from Chicago on No. 2 to-day.

There will be another excursion to Cincinnati to-morrow.

No. 1 on the Pittsburgh had 120 emigrants on board to-day.

Fireman Jack McCarty, of the Pittsburgh, is on the sick list.

The Petuskey boom is played out; the last of the excursionists are coming back.

General Freight Agent Osborn of the Washburn says that the prospect for a big freight business this fall was never better.

Engine 43 on the Washburn pulled 82 cars loaded with wheat out of this city this morning, and went into Toledo ahead of running time.

Engine No. 42, Edward Shell, engineer, and Charles Weaver, fireman, goes to Toledo to-day with eighty loaded cars, and returns to-morrow with 150 empties.

The Washburn railway is getting down to the rudiments. General Passenger Agent Townsend has just issued a Washburn primer, which is designed to teach people the first lessons in traveling. It is needless to observe that the first lessons inculcate the knowledge that the quickest, best and cheapest is by the "Friendly Hand route."

On Monday night three railroad men were arrested for an alleged trespass. The trespass was found not to have been committed at all and they were released.

News from Memphis.

MEMPHIS, TENN., Jan. 9, 1879.

During the late epidemic of yellow fever in this city, I received a lot of Rhine's Natural Mineral Water, and I must say that I was much pleased with it, than with any other water of similar character. I HAVE EVER USED.

G. B. THORNTON, M. D.

In cases of fever the Rhine's Natural Mineral Water has always been accompanied with perfect success. For sale by the leading druggists.

That Quinine will cure Chills and Fever is well known. But it is strange that the other febrile principles contained in Peruvian bark more powerful than Quinine, and hence the time and money expended in vain, and the annoying bad symptoms like buzzing in the ears. This fact is proved by Dr. P. Wilhoft's Anti-Periodic or Fever and Ague Tonic, which is a preparation of Peruvian bark, without Quinine, according to the declaration of its proprietors, Wheelock, Flinck & Co., of New Orleans.

We Challenge the World.

When we say we believe we have evidence to prove that Shill's Consumption Cure is decidedly the best Lung Medicine made, inasmuch as it will cure a common chronic cough in an hour, and at the same time relieve Asthma, Bronchitis, Whooping Cough, Croup, and show more cases of Consumption cured than all others. It will cure where all others fail. It is safe, harmless to the youngest child, and we guarantee what we say. Price 10 cents, 50 cents and \$1. If your lungs are sore, dry or tickle, use Shill's Peruvian Tonic. Sold by Dr. J. B. Dyer & Co.

Do You Believe It?

Think in this town there are scores of persons passing our store every day whose lives are made miserable by Indigestion, Dyspepsia, Sour and Bitter Stomach, Liver Complaint, Constipation, etc., when for a few cents we will sell them Shill's Vitalizer, guaranteed to cure them. Sold by Dr. J. B. Dyer & Co.

The whole difficulty was because Immel took Westrum's horse for a little drive without first getting Westrum's absolute permission.

## A PRYING PAIR.

Who Fooled Around an East Main Street Residence.

Mysterious Actions of Two Men Last Night.

The mysterious actions of a man on East Main street last night attracted considerable attention from interested parties, of which the object was entirely unconscious and had he known how near he came being sent to the bright eternal by a revolver in the hands of Justice Becks he assuredly would have lost no time in getting out of that vicinity.

At about 11 o'clock last night Mr. Becks was awakened by the barking his dog. He went to the window, and by the bright moonlight saw a man in his yard. He continued to watch him for about half an hour, when the man went outside and devoted his attention to the opposite house and then came back. Mr. Becks's now dressed himself and taking his revolver, went down stairs and hid himself in the shade of the shrubbery. The man on the outside was then joined by another man and the two stood conversing for a long while. Officer Trautman came up the street, when the two separated and walked off in different directions. After the officer had passed by they again came together and continued their mysterious movements until about 2 o'clock, when they left. Mr. Becks waited a while for them to return but they did not and he retired.

The mystery is what they wanted or what they were doing there at that time of night. Mr. Becks knows one of the men and has seen him frequently and has seen him about the premises three times before, and swears that the next time he sees him prowling around there after dark he will send a bullet after him to interview him.

## FORGERIES.

### Manufactured Notes Peddled Through the County.

John P. Shoaff Swindled Out of Over \$300.

On Monday a stranger sold to John P. Shoaff three notes calling for \$95, \$125, and \$115, signed respectively Abraham Jackson and Henry Shull, dated at Maysville, and Saml. Zeimer, dated at Spencerville.

Before buying them Mr. Shoaff inquired as to the solvency of the makers, and finding them all reliable men he bought the notes as above stated. This same man had offered to sell the notes to Wash Duntun, Huntstown, last Monday. Mr. Duntun not wishing to buy a cat in the bag told him he didn't have the money with him, but that he would meet him at the Grand Hotel yesterday afternoon and would take the notes. He went home, and in the meantime drove over to the residence of Henry Shull, the reputed maker of the notes. Mr. Shull was much surprised to learn that any one had a note of that kind on him, and denied most emphatically ever having made any such a note.

Mr. Duntun did not visit the other supposed makers but concluded that they were forgeries as well. So he was just about starting for this city to purchase the notes, intending to have an officer present at the same time and immediately after the purchase of the notes have him arrested and held to trial.

Before leaving, however he was met by Deputy Sheriff Wilkinson who informed him that Mr. Shoaff had bought the notes and had them now in his possession. Mr. Quinton then started for the residence of Mr. Shoaff to apprise him of the circumstances and it was supposed that both gentlemen would be in the city to-day, but at this writing they have not yet put in an appearance. The notes were for the purchase of lighting rods, but further than that nothing can be learned, as neither of the alleged makers is in the city. Neither is it safe to say that the notes were forgeries, only on the statement of Mr. Shull, who disclaims any knowledge of ever having had any business transactions with the lighting rod company. Further developments will probably be made to-morrow.

## AURENTZ-MONNING.

Brilliant Matrimonial Event This Morning.

An affair which has for sometime been the theme of conversation in fashionable circles, culminated this morning in the uniting of the destinies of Miss Anna Monning, daughter of our esteemed fellow-townsmen Henry Monning, and Simon Aurentz, son of Phillip Aurentz. At precisely 10 o'clock the doors of St. Mary's Church were thrown open, and the high contracting parties matched up the aisle, attended by Mr. John Aurentz, brother of the groom and Miss Kittie Monning, sister of the bride. The church was thronged with guests who came to witness the ceremony, and with the grand altar a perfect blaze of light, and the large organ pealing forth the grand wedding march, the scene was decidedly brilliant. The bride was dressed in white Swiss, with flowers in her train and bridal veil, while the groom wore the conventional black. After the tones of the organ had died away the Rev. Father Rademacher came forward and joined the happy couple in the holy bonds of matrimony, and after a few words of advice retired to the sacristy where he robed for mass which was immediately celebrated and the happy couple adjourned to the residence of the bride where a sumptuous repast and the hearty congratulations of friends awaited them. The SENTINEL extends its hearty good wishes towards the happy couple, and may they sail down the stream of time untouched by the tempests and storms that rage throughout this heartless world.

## THE RAILROADS.

C. D. Gorham returned from Chicago on No. 2 to-day.

There will be another excursion to Cincinnati to-morrow.

No. 1 on the Pittsburgh had 120 emigrants on board to-day.

Fireman Jack McCarty, of the Pittsburgh, is on the sick list.

The Petoskey boom is played out; the last of the excursionists are coming back.

General Freight Agent Osborn of the Wabash says that the prospect for a big freight business this fall was never better.

Engine 42 on the Wabash pulled 82 cars loaded with wheat out of this city this morning, and went into Toledo ahead of running time.

Engine No. 42, Edward Shell, engineer, and Charles Weaver, fireman, goes to Toledo to-day with eighty loaded cars, and returns to-morrow with 150 empties.

The Wabash railway is getting down to the rudiments. General Passenger Agent Townsend has just issued a Wabash primer, which is designed to teach people the first lessons in traveling. It is needless to observe that the first lessons inculcate the knowledge that the quickest, best and cheapest is by the "Friendly Hand route."

On Monday night three railroad men were arrested for an alleged trespass. The trespass was found not to have been committed at all and they were released.
